Subject: RE: [External] AZP Sampling

Sean indicates they had the use of XRF in one of the bullet points. Use of the XRF assumes the samples are dry. Moisture content can cause problems.

Good Morning,

Following today's teleconference, Ken called me and suggested the use of an XRF sampling device to screen soil samples to expand the assessment. Is this a possible way of having a faster understanding of the situation at the site?

Thanks,

Javier E. García
